Descriptors-AUDIOVISUAL AIDS, *CATALOGS, CURRICULUM ENRICHMENT, EDUCATIONAL RESOURCES, ELEMENTARY GRADES, *INSTRUCTIONAL AIDS, *INSTRUCTIONAL MATERIALS, KINDERGARTEN, *PUBLICATIONS, RESOURCE MATERIALS, SECONDARY GRADES

The materials listed in this catalog were collected by a committee of the Association for Supervision and Curriculum Development from school systems, state departments of education, institutions of higher education, and educational organizations in the United States and Canada. The listing contains 1750 publications and some audiovisual materials and periodicals. The materials are classified by subject-matter and type under 18 categories consisting of 11 curricular subject categories and seven general categories including: General Curriculum Materials such as handbooks, policies, and manuals; General Curriculum Development for the kindergarten, elementary, and secondary levels; Special Programs; Broadening the Scope of the Curriculum; Guidance, Counseling, and Evaluation; School-Community Relations; and Adult Education. Within each category, materials are listed by state, and each entry includes source, title, price, and date and pagination when available. (MT)

## Foreword

Materials received by the Curriculum Materials 1967 committee and included in this publication came from 239 school systems, state departments of education, institutions of higher education, and educational organizations. The sources which provided material are located in 44 states, the District of Columbia, and Canada. Although a few items were received which could not be included in this exhibit, 1750 publications are listed. The only materials that are not included in this catalog were as follows:

1. Materials that were received after the classification of items was completed on January 4, 1967.
2. Materials that are of a commercial nature and would be in competition with the other exhibits at the convention.
3. Duplicate copies of materials which would overcrowd the limited space available for exhibit purposes.
4. Materials that were in a form that would be hard to manage, e.g., single sheet announcements, posters, etc.

The committee wishes to thank all contributors for their response to the request for materials.

For classification purposes the same categories are used that were employed in the previous issue of this publication. It is hoped that this plan will facilitate its use. It was the intent of the committee to furnish as much bibliographic information as possible although this was not complete in some of the publications received. Where necessary such entries as "no date," "unpaged," "various paging" were used.

The listing of material in this catalog is for the convenience of conference participants or other interested persons and is not to be construed as an endorsement of the committee or of the Association for Supervision and Curriculum Development. Requests for further information concerning materials should be directed to the organization which published the material itself and not to the ASCD or this committee.

The committee wishes to thank Virginia Berthy and Robert R. Leeper of the ASCD office for the assistance given in the production of this publication. Thanks are also given to the volunteer workers who helped with the examination and classification of materials.

Respectfully submitted,

Donald McDonald, Chairman
Professor of Education
Texas Technological College
Lubbock, Texas

Members of the committee:

Nancy Boze
